

Mission

iOS Developer **with 4 years** of experience delivering robust, user-centric applications using **Swift, SwiftUI, and UIKit**. Proven ability to design responsive UIs, optimize performance, and collaborate effectively in Agile environments. Passionate about clean architecture, scalable code, and seamless user experiences that drive business impact.

Employment

Application Development Analyst: Saudia Airlines (Accenture) Aug 2022 - Present

- Worked on **the Saudia Airlines Flight Booking app** using **SwiftUI**.
- Built features from scratch and contributed across the full development cycle, from planning to release, using **VIPER** architecture within Agile and Scrum workflows.
- Collaborated across multiple pods, including **Booking, Manage My Booking, Check-In, Dashboard, and Login**.
- Resolved bugs across multiple pods as part of the **Continuous Integration (CI)** team.
- Proactively improved **code coverage to 80%** by identifying untested areas and writing functional test cases, enhancing app stability and reducing production issues.
- Took ownership of setting up Google Tag Manager (GTM) and analytics tracking across all pods, enabling comprehensive user behavior insights and data-driven decision-making.

Application Development Associate: Shoppers Stop (Accenture) May 2021 – Jul 2022

- **Revamped** the existing Shoppers Stop application by updating the UI to align with modern design standards.
- **Optimized** app performance to enhance responsiveness and deliver a smoother user experience.
- Developed core e-commerce features including Cart, Login, Product Listing, and Product Details screens.

Technical Skills

-
- **Languages:** Swift, SwiftUI
 - **Frameworks/Libraries:** UIKit, Firebase, Kingfisher, Lottie, IQKeyboardManager, Alamofire, Cocoa Touch
 - **Architectures:** MVVM, VIPER
 - **Testing:** XCTest, XCUITest
 - **Tools:** Xcode, Git, Jira, Google Tag Manager (GTM), Firebase Analytics.

Achievements

-
- Awarded **Rising Talent** and **I-Champ** for outstanding contributions to the Saudia Airlines project.
 - Promoted from Associate to Analyst within one year for exceptional performance at Shoppers Stop.
 - Received the **Beyond Boundaries** award for exceeding expectations on the first project at Shoppers Stop.

Education

Master of Computer Applications (R V College of Engineering)	2017 - 2020
Bachelor of Computer Applications (Gogte College of Commerce)	2014 - 2017
